

WaterSparks by Damian Priour: September 17 through December 20, 2009

The natural beauty of Central Texas is captured in this exhibit of four chair sculptures hand carved and sandblasted by Damian Priour in his studio near Austin. Priour's works are inspired by and evoke water and land. These pieces are part of a larger exhibit curated by Clint Willour of Galveston Art Center and co-hosted by Umlauf Sculpture Garden & Museum where more of his works can be seen both indoors and out.
