

# Hike Observation Sheet: Leaves

On your hike today see if you can find each tree or shrub listed below and draw a leaf from each one in the box provided. Take a moment to investigate the leaf's texture (the way the leaf feels), venation (pattern of veins), and margin (edge along the leaf). Include the venation and margin in your drawing and write down how the leaf feels. Remember to be gentle and not to pick the leaves off the trees.

<b>Texas Redbud</b> <i>(Cercis canadensis var. texensis)</i>	<b>Wafer-ash</b> <i>(Ptelea trifoliata)</i>	<b>Texas Red Oak</b> <i>(Quercus buckleyi)</i>
<b>Texas Persimmon</b> <i>(Diospyros texana)</i>	<b>Flame Leaf Sumac</b> <i>(Rhus Lanceolata)</i>	<b>Rough Leaf Dogwood</b> <i>(Cornus drummondii)</i>
<b>Agarita</b> <i>(Mahonia trifoliata)</i>	<b>Ashe Juniper</b> <i>(Juniperus ashe)</i>	<b>Osage Orange</b> <i>(Maclua pomifera)</i>
